Mac Photos Duplicate Cleaner Virus Avast

Duplicate Finder Finds and eliminates duplicate files to save disk space and to ensure that users are left with the preferred version.. Avast Cleanup Pro automatically selects the photos that are recommended to remove.. You can specify where Avast Cleanup Pro should look for photos, and then after the scan completes, review and select which photos you want to delete.. To perform a scan, click Find under Find Photos on the main Avast Cleanup Pro screen.. To enhance security and optimize machine performance, Mac users may purchase 2018 Avast Security Pro and Cleanup Pro for Mac, available at.
